For questions regarding Advanced Teams, email csladvanced@gmail.com.

The advanced soccer program was created as an alternative for players who want to remain in recreational soccer but play at a higher level of competition. CSL advanced teams compete in the Tidewater Advanced Soccer League (TASL) and play other advanced teams from soccer programs in the local area and play on average 8 Saturday games. Advanced soccer provides a player a good first competitive challenge and provides the player the opportunity to develop his/her soccer skills. Advanced soccer can serve as a stepping-stone for players to achieve the skills and understanding of the game necessary to play at the travel/select level.

Advanced teams are chosen for a Soccer year, Fall and Spring seasons. Games are played in the Tidewater area, with the furthest possible games in Abermarle, Carrolton, and Williamsburg, depending on the division your child's team is playing in. Practices are 2 days a week for 90 minutes with games played on Saturday. Fall season starts usually after Labor Day and ends before Thanksgiving, with Columbus Day weekend off. Spring season usually starts before Easter and ends before Memorial day, with Easter weekend off. For other questions please contact csladvanced@gmail.com
